

District Deputy Grand Master's Message

Brethren,

It is indeed an honour to serve as the DDGM for Frontenac District. It is a role that promises to be challenging and rewarding.

I am indebted to the brethren of Simpson Lodge for their nomination and to you, my District brethren, for your subsequent support and encouragement.

Our Grand Master, MW Bro. David J. Cameron, has challenged us to stop looking backwards and lamenting our declining membership but rather to look forward and refocus on our ability to change lives. It is our ritual that sets us apart and that ritual has the ability, when done well, to provide a life-changing experience to every candidate. That experience opens us to continual personal growth, new friendships and participation in a greater good.

Over the upcoming year I shall strive to remind you of the sense of joy and wonder available through an immersion in the Masonic experience.

In contribution to our community, the District Project this year is in support of Interval House, a shelter for women and children at risk. All of us with daughters know the fear that they might love unwisely. Interval House provides an escape for those who have.

Thank you again for your support. I shall do my best to fulfill your expectations and I ask for your understanding now for those occasions when my best may prove to be not quite good enough.

Sincerely and Fraternaly,
Bernie MacLean
D.D.G.M. Frontenac District, 2019-20

District Project

Frontenac District has a long standing tradition of providing support to worthy community organizations. This year is no different and I'm pleased to present Kingston Interval House as the district project for 2019-2020. Interval House has a proven record of providing critical support to women and their children who have found themselves in stressful and often dangerous, relationships.

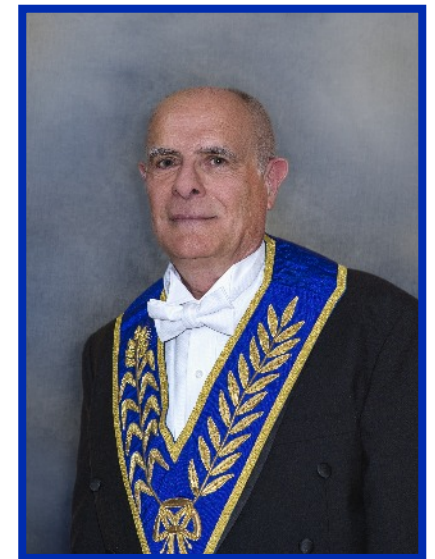

The focus of our project is to provide financial support to the creation of a youth room in the Interval House longer-term facility (Robin's Hope Transitional Housing Complex). This room will be dedicated to the needs of children and youth who, through no fault of their own, have been exposed to domestic violence. This special place will provide an environment conducive to children and youth seeking counsel and advice as they deal with the present and search for ways forward.

A District Project Number has been applied for and will be announced when available.
